Beyond Motor Pool & FedRAMP

Agenda

.Net

COMMAND 24

Custom Integrations

- Improved performance and scalability.
- Built-in security features and regular updates, reducing vulnerabilities and safeguarding your application against emerging threats.
- Long-term support of the upgraded framework, ensuring that your application remains robust and secure for

Next Steps

- Contact your Client Success Representative if you have not yet reviewed your custom software.
- If it is determined that you do still need the custom work and need it rewritten, we will need a signed change request provided by Client Success.
- If it is determined that you no longer need the report you will need to sign a letter stating that the report will be deprecated from your site
- Goal is to have everything rewritten by July 1, 2025.

Hardware Best Practices

Keep your equipment in tip-top shape.

- If your kiosk is outdoor, you should have proper weather protection.
- Keep hardware in a secure location if possible.
- Keep your kiosk up to date with the Microsoft updates.
- Keep a key log of your keys in case any keys are misplaced.
- Make sure outlets to your key box and kiosk are not on timers.

Time for a Tune Up?

- **If your kiosks are over four years old, consider upgrading for:**
 - Improved performance & responsiveness
 - Enhanced security
 - Improved supportability with replacement kiosks shipped the same or next day

SAR = Security Assessment Report

POA&M = Plan of Action and Milestones

ATO = Authorization to Operate

FedRAMP

COMMAND 24

Built upon the foundation of NIST SP 800-53 is a comprehensive set of security and privacy controls for federal information systems and organizations. Designed to protect information systems against cyber attacks, insider threats, and other vulnerabilities.

NIST SP 800-53 serves as a foundational resource for establishing and maintaining security and privacy programs within federal agencies and other organizations. By providing a comprehensive set of controls and guidance, it helps organizations protect their information systems against a wide range of risks, ensuring the confidentiality, integrity, and availability of information.

FedRAMP Process

COMMAND 24

Agile Fleet is currently at stage #6 and we are looking to go live by Q2 of 2025.

FedRAMP Benefits

Cost and Time Efficiency:

- **Standardization:** FedRAMP's standardized security requirements and assessments reduce the time and resources agencies need to spend on evaluating cloud services.
- **Pre-Authorized Cloud Services:** Agencies can leverage existing FedRAMP authorizations, speeding up the procurement and deployment of cloud services.

Improved Security Assurance:

- **Comprehensive Security Controls:** FedRAMP's rigorous security controls provide agencies with confidence that certified cloud services are secure.
- **Continuous Monitoring:** The continuous monitoring requirements ensure that security controls are maintained and updated in response to new threats.

Regulatory Compliance:

- **Alignment with Federal Policies:** FedRAMP aligns with federal security regulations and policies, helping agencies meet their compliance obligations.
- **Simplified Audit Process:** The standardized approach to security assessments can simplify audits and reporting for agencies using FedRAMP-certified services.

Partnerships

Agile Fleet Alliance Network

Agile Fleet values building meaningful relationships with fleet and technology's leading solutions

Partnership Value

- Synergy
- Provide an unparalleled customer experience
- Expedite innovation
- Diversify our offerings
- Expand our reach
